

These *five fabulous felines* have been at the Brownstown Animal Shelter for months and months. They have watched other cats come in and get adopted, but they keep getting passed over. Each one is a great cat, full of personality and love, and all they want is a home of their own and to spend Thanksgiving with their new family... *Will it be yours?*

Tucker

Tucker is amazing, simple as that. He's been here almost a year and is as sweet and loving as the day he arrived. Tucker gets along great with other cats. He is a calm, laid-back cat who would love a lap or couch to hunker down on.

Hailey

Hailey is an inquisitive and alert little lady. She's always watching the goings-on at the shelter and looks like she just wants to join in on the fun. She's been waiting for awhile for someone to give her the love she deserves.

Fester

Fester was given up by his owner and has had some trust issues as a result, but he has really warmed up to us since he's been at the shelter. He still is a more reserved cat and would prefer a quiet, calm home without other animals.

Hilda

Hilda is a calm, relaxed cat who clearly just wants to be held and loved. As soon as you pick her up she starts purring and kneading her paws. She has a cute little mustache on her face that makes her always look happy.

Taffy

Taffy came in alone off the streets as a very sick kitten. She's healthy now, but was so used to fending for herself that she's a bit timid around people. She just needs a safe, calm home and time to trust her new family.
