

Sibley Road Construction

Telegraph Road to Racho

One lane of EB Sibley traffic will be maintained for the duration of the Contract (July 9th thru approximately November 15th).

During Stage 1, EB traffic will be maintained on the existing EB pavement while the new Concrete is constructed on the WB lane.

WB Sibley Road, between Toledo-Dix and Telegraph, will be detoured to through traffic at Toledo-Dix for the duration. WB Sibley will be open to local traffic only up to Racho. This local access will be closed at a future point in the project when the pavement is installed in this area.

Residential and Business access will be maintained for the contract duration, except that residential drive access may be limited during an approximately two week window for concrete placement and curing.

Please call Chris Brinks, Wade Trim Associates, at 734-947-2788 with any questions or concerns.
